KEITECH

HISTORY

Keitech was established in 1996 by Kei Hayashi, one of the country's top Bass professionals. Keitech is a leading tackle manufacturer in Japan, producing highly effective bass lures for every situation.

Keitech offers top quality bass lures, based on a wealth of fishing knowledge and advanced production technology.

PRODUCT DESIGN

Our no-lead, tungsten compound limits our environmental impact, while providing a technical advantage. In-house design and product development ensure industry leading quality standards and raise existing designs to new levels.

When winning counts... Count on Keitech!

KEITECH USA INFORMATION

Keitech USA is the exclusive distributor of Keitech products in the United States. At Keitech USA, we value our clients and strive to provide the very best customer service.

Product questions and dealer inquiries are always welcome. Feel free to contact us anytime.

KEITECH

TUNGSTEN RUBBER JIG

MODEL I

CASTING JIG

The Model I jig has many features not found in your ordinary bass jig. The Tungsten tear drop powder coated head is perfectly balanced; it penetrates cover and does not roll over. The hand tied 150 strand skirt is produced from Keitech's exclusive SR-40 silicone. This super soft, fine cut material provides remarkable life-like action. The weed guard is hand glued to ensure perfect alignment to the custom Gamakatsu 3/0 hook. This compact size tournament winning jig excels under all conditions and is the only jig to throw when the money's on the line!

Jigs available in 1/4 oz., 3/8 oz. & 1/2 oz. sizes

MODEL III

SWIM JIG

The Model III Swim Jig is a revolutionary Tungsten Swim Jig design that combines a custom Daiichi Super Strong weighted Jig Head with an exclusive SR-40 snap on Silicone skirt with a Screw-in Keeper. When combined, the Jig and Skirt provides perfect Alignment and Balance and becomes totally weedless. The Model III Swim Jig was designed for use with the 4.8 Fat Swing Impact. When used together it becomes the deadliest lure in your arsenal. The weedless design allows the angler to utilize various techniques without ever picking up another rod. Cast it and retrieve on shallow cover, Flip or Pitch it directly at the target, Probe weed beds. The options are endless...

KEITECH

Easy Shiner

The Easy Shiner combines the body of the Shad Impact with the fantastic tail action of the Swing Impact. These versatile swim baits come in 3 sizes to match any fishing conditions. Keitech's original two-tone color injection process uses different types of salted plastics to achieve better balance and action. These baits can be fished many ways. The 3" works great on a small Super Round Jig Head and the drop shot. The 4" has produced outstanding results on the jig head, Texas Rigged and the split shot rig. Lots of big fish are coming on the 5" using Carolina and Alabama Rigs. The Easy Shiner has a wide-wobbling rolling action that drives predator fish wild!

- Incredible swimming action
- Custom Keitech 2-tone color process
- Specific plastics for better balance and action
- Strong natural squid scent

Retail Price 3" - \$4.99
 Retail Price 4" - \$4.99
 Retail Price 5" - \$6.99

Detail

Rigging with a Keitech Super Round Jig Head ensures positive hook-ups when fish strike.

Adding a bullet weight to your Texas Rigged Easy Shiner makes a very good weedless bait.

Keitech's innovative and tournament tested swim tail gives the Easy Shiner incredible action.

A recessed hook slot makes it easy to keep your Easy Shiner weedless.

KEITECH

Swing Impact FAT

The Fat Swing Impact has really taken the Paddle tail swim bait to the next level. Keitech's original two-tone color injection process uses different types of salted plastics to achieve perfect balance and action. The most impressive feature of these great new swim baits is the ability to maintain a perfect swimming motion at any retrieve speed. And the "Fat" 3.8" really breaks the mold! It's not only a great swim bait, but it doubles as one of the most effective flipping baits we ever used.

- Remarkable swimming action
- Custom KEITECH 2-tone color process
- Strong natural squid scent
- Perfectly balanced- Never rolls over
- Swims perfectly at any speed

Detail

Tapered designed ringed body distorts the shape to a more natural appearance and provides improved weedless performance.

The center rigging line provide the perfect position to ensure the bait is rigged correctly.

The Fat Swing Impacts are packaged in blister packs to protect the integrity of the baits.

KEITECH

Mad Wag

The Mad Wag is truly a unique offering. The ribbed body design incorporates the New "PGS" (Point Guard System) which makes the Mad Wag extremely weedless. The "Thick Bone" tail design creates a strong and wide waggle action which moves water, creating maximum vibration. Special plastic densities are used in the tail to provide movement at the slowest of speeds. The Mad Wag can be fished as a Swim bait or Texas rigged on a 5/0 hook. It can also be flipped and pitched, making it a truly versatile bait.

KEITECH

Salty Core Tube

Keitech has developed a new technology that allows us to create a brand new bait called the "Salty Core Tube." Injected with super amazing quality, the Salty Core Tube is not like normal hollow tubes. It has two unique layers in its construction. It is an excellent bait for shallow cover flipping and pitching with a Texas rig. But it can also be a very effective "back sliding" lure on a weightless rig.

New for 2013 !!

Salty Core Tube 4.25"

KEITECH

6 Tubes / Pack

Retail Price - \$7.49

Detail

#1 Two Unique Layers

The Salty Core Tube has two layer construction that combines two different materials to make it very unique and efficient.

The Inside layer (we call it the "core") has super high salt, soft plastic material that makes the bait soft and heavy.

The core is wrapped in an outside layer (we call it the "skin") made of low salt, hard plastic material that makes the bait very durable.

Durable, soft and heavy - The Salty Core Tube has these key elements of a highly productive bait for shallow cover fishing.

#2 Two Effective Rigs

Texas Rig - The weight of the bait is 1/2 oz. so that you can easily pitch it a long distance with a light bullet weight. Long distance and light weight should be the key to catching spooky fish in shallow water. We recommend using a #4/0 offset shank hook.

Weightless Rig - Try rigging a #5/0 hook in the center of the tail with no weight and you've got a "reverse rig" that has a very good back sliding fall. It is so effective when fishing various overhangs. Even weightless, the bait is heavy enough to pitch or skip.

KEITECH

Shad Impact

The Shad impact was designed after careful consideration and research. To produce a shad bait which maintains a horizontal swimming posture required different type of plastics to be combined into one bait. The top section of the bait is made with a no salt, light weight plastic and the bottom is a heavier, salted plastic. This combination provides the balance necessary to achieve the desired effect. Both the 4" & 5" can be fished weightless on either a split shot or Carolina rig and can also be an effective shaky head or drop shot lure.

Horizontal swimming action
 Specific plastics for better balance and action
 Custom KEITECH 2-tone color process
 Strong natural squid scent Retail Price - \$4.99

Detail

Unsymmetrical body design creates a rolling action which drives predators wild.

Shad impact is produced from dual injected, different weighted plastic to provide perfect balance and flash.

The top and bottom are slotted for perfect hook alignment.

Live Impact

The Live Impact is a Ringed Body, Fork Fin tail, floating worm loaded with Keitech's Strong Squid scent. The Live Impacts are very versatile baits. They can be fished Texas rigged, with a Split Shot or on a Shaky Head. The high buoyancy plastic and split tail design works well on a drop-shot rig, especially in current situations.

KEITECH

Sexy Impact

The Sexy Impact was designed to duplicate the natural swimming action that drives predatory fish wild. The life-like swimming action is created by the perfectly tapered tale. The top section of the bait is made with a no salt, light weight plastic and the bottom is a heavier, salted plastic. The 3.8" has quickly become the drop shot bait of choice and bedding fish can't stand Miss Sexy.

Side view

The taper tail design produces a life like swimming action on the fall and following the slightest movement. Two types of different weighted plastics provide perfect balance.
